

# COLORFILE® LABELS ON-DEMAND

Faster, More Efficient Labeling for Your Color Coded Filing System

# COLORFILE® LABELS ON-DEMAND

Faster, more efficient labeling for your color-coded filing system.

ColorFile Labels On-Demand is a unique and easy-to-use software program that enables you to create a fully color-coded file with a single-strip label. With a single-strip label, you can save up to 60 percent of the time it traditionally takes to create a new file compared to applying multiple individual labels.

Files created using labels generated from the ColorFile Labels On-Demand system integrate seamlessly into existing ColorFile filing systems or can be tailored to match your current color-coded filing system needs. Whether it is alpha, numeric, year, month, make or text, the ColorFile Labels On-Demand system has the technology to quickly take your information and print out complete and easy-to-read color-coded labels for your files.

The ColorFile Labels On-Demand system includes label generating software with standard templates that help you with everyday business.

From deal and accounts payable jackets in the front office to service folders in fixed operations, we've got it covered. Custom templates are also available for any unique applications you may require.

The patented labels used with the ColorFile Labels On-Demand system are constructed of bright white printer compatible label stock and designed specifically for easy application to your filing folders. Laminate protectors are also available to help protect your labels from water, oils, and harmful UV rays.

“With Color File On Demand, our file room employee can generate about 50 file folders per hour. In the past, it was a very laborious process getting the actual numbers and sticking them on one-by-one. Having to apply just one label is the main advantage of Color File On Demand —that is where our time is best saved.”

— David Paterson  
Fixed Operations Director  
Gwinnett Place Honda

“The color-coded filing colors were a very, very close match to what we were using before. You just roll one label over and it's done. One of the best features is that if the cashier is interrupted, she can come back when she is ready and pick up right where she left off – huge time savings!”

— Dan Combs  
Service Manager  
Voss Hyundai

## SOFTWARE

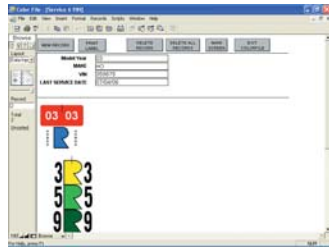

ColorFile Labels On-Demand software can save you up to 60 percent of the time it takes to create a new folder! Along with saving time (which is money), everyone in your dealership will benefit by having easy-to-read, easy-to-sort and easy-to-retrieve files.

The ColorFile Labels On-Demand software package contains the main software application and five templates to create labels that will fit seamlessly with your color-coded systems.

### CREATE FILES FASTER IN THREE SIMPLE STEPS...

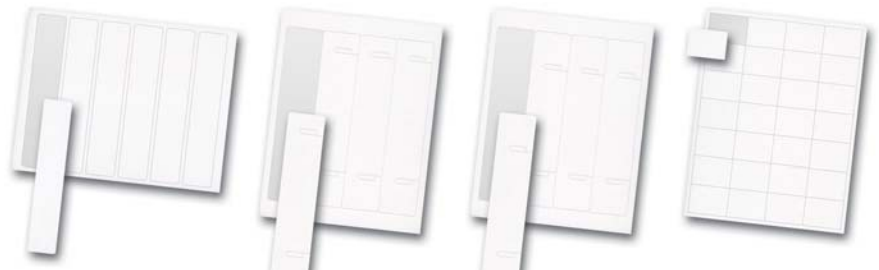

1. Choose a template to create your label.
2. Type in the information to be coded.
3. Preview and print.

It's just that easy!

## LABELS

ColorFile labels have been designed to work seamlessly with your existing color-coded filing system. Choose from a simple strip label for deals or accounts payable, our patented service label in either 6 or 7 digit VIN design, or our month/year labels to keep your records up to date.

## LAMINATES

For added protection from water, oils, grease and UV rays that could shorten the life of your color-coded files, ColorFile laminate protectors will help prevent harmful damage and save you time and money from having to relabel worn folders.

## PRINTERS

Printing your new ColorFile Labels On-Demand labels couldn't be easier. Whether it is a networkable laser or versatile all-in-one ink-jet, we have the printers and supplies to fit your business needs.

## Power Summary

ColorFile Labels On-Demand is a software solution that reduces the time necessary to fully label color-coded files.

### **Productivity.**

Reduce file creation time up to 60 percent by printing and applying only one label instead of eight to 10 individual labels.

### **Convenience.**

Handwritten files can now be replaced with easy to retrieve color-coded files that everyone can read.

### **Efficiency.**

Color-coded files are almost impossible to misfile—and much easier to find, saving you time looking for misplaced files.

### **Organization.**

Keep records current by displaying when they were last updated. Old records can easily be purged from the system, leaving space for new business.

### **Accuracy.**

Keeping documents in the right file is made much easier by being able to quickly identify when you have the correct file folder, and color coding makes that possible.

## ColorFile Filing System has a variety of components available:

- **File Folders**—designed for sales, service and office use.
- **Shelving**—choose from an extensive variety of slant, square and four-post shelving as well as track and mobile systems and lockable security doors.
- **Floor Planning Services**—need help deciding which system to choose for your dealership? Your Reynolds Document Consultant is available to assess your dealership's filing needs and recommend a space-saving solution using the ColorFile Filing System. This system is provided at absolutely no charge and as always, you will receive Reynolds' award-winning service and support.
- **Financing Options**—select from convenient and affordable financing. Monthly payments can help you manage your budget and business expenses without the worry of larger, one-time investment costs.

**For more information about the ColorFile Filing System, contact your Reynolds Document Consultant or call 1-800-344-0996.**

### **PC REQUIREMENTS:**

- CD-ROM drive and hard disk drive
- 63MB hard drive free space
- Pentium 300MHz or higher
- 64MB RAM for Windows 2000, 128MB RAM for Windows XP
- Windows 2000 (Service Pack 4 or higher), or Windows XP (Service Pack 1 or higher)
- Standard VGA color monitor
- Access to color printer (Inkjet or Laser)

We Work for You.
