Dealership-wide Solutions

Ask Yourself...

- ? If I get audited, will I be able to quickly find the information I need?
- ? How do I replace all my financial data if there is a disaster?
- ? How many labor hours are being wasted filing and finding information?
- ? Why does my parts department have more storage boxes than parts?

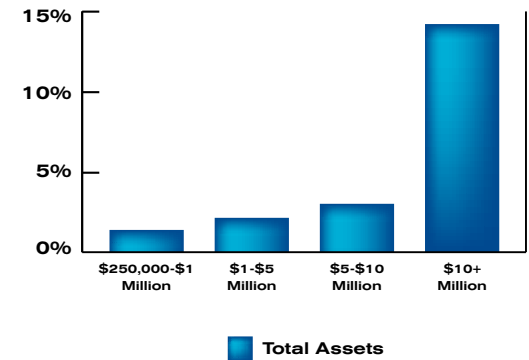

In 2009, the IRS assessed a total of 970,098 civil penalties to businesses. Would your dealership be prepared if it was audited?¹

Expect Results

- Eliminate hours and hours of printing and reprinting accounting reports.
- Save valuable time when searching for needed information.
- Reduce storage, printing, and supply costs.
- Safeguard your vital data against loss in the event of a system failure or disaster, such as a fire, flood, or break-in.

¹ IRS Publication 55B (Rev. 3-2010)

Will You Be Audited?

According to the 2009 IRS Audit Rates, the likelihood of being audited increases with assets and income, making dealerships prime targets for audits. If you're audited, is your accounting information easily accessible?

About Kodata Solutions

Protect your data and reduce costs with an electronic archiving solution that can help you easily access your archived reports from a CD or secure website.

Find the data you're exactly looking for with powerful search capabilities.

View your reports right on your screen.

Did You Know?

The average dealership consumes nearly two trees to print out monthly accounting books. Not only could an electronic archive help you reduce this waste, but it could also save you time and money.

Highlights

- Store journals, schedules, general ledgers, and reports in a secure, easy-to-access digital archive.
- Data is stored in an off-site vault for additional security.
- Easily access your data on a CD or from any computer through a secure website.
- Stay compliant with IRS Revenue Procedure 98-25.
- Use your preferred system – Kodata works with virtually any dealership management system.

Your business data is valuable, but storing and securing it can be costly and time-consuming. Save time, reduce costs, meet compliance standards, and keep your vital data safe with Kodata.

MAKING BUSINESS BETTER.
