

Don't Let Crime Pay

ERA

U.S.

Business Office Solutions

Ask Yourself...

- ? Am I doing everything I can to protect my dealership against counterfeit and altered checks?
- ? Is my dealership losing money due to undetected check fraud?
- ? How much time do my employees spend manually entering check information to send to banks?
- ? Am I confident all checks created are reported to the bank, regardless of the check date?

Check fraud is the third most frequently reported fraud violation.*

Expect Results

- Protect your dealership from counterfeit and altered checks.
- Save time by eliminating manual processes.
- Avoid the costly correction of key-punch errors.
- Increase confidence by knowing checks created later in the day will automatically be included in tomorrow's report.

* American Bankers Association Deposit Account Fraud Survey Report

Check Fraud Is on the Rise

The American Bankers Association reports check fraud is growing by 25% a year.*

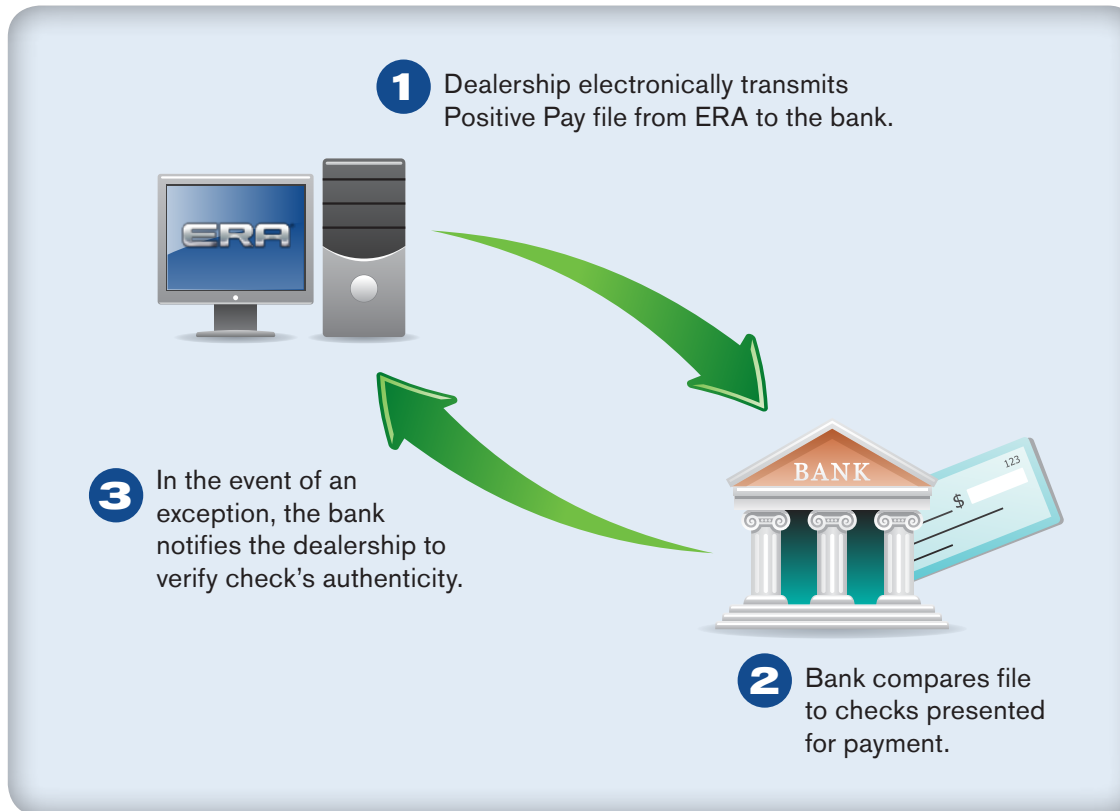

Positive Pay

About Positive Pay

An anti-fraud service that electronically sends an accurate and up-to-date list of checks issued by your dealership to the bank. This helps prevent checks from being cashed or cleared if amounts or numbers don't match the information provided from ERA®.

More than **1.2 million fraudulent checks** are written **each day**.*

* Office of Comptroller of the Currency

Accurate and up-to-date check information flows seamlessly from ERA to your bank.

Highlights

- Replace manual processes with a direct interface from ERA to your bank.
- Set up the Positive Pay file format according to your bank's standards.
- Easily make modifications to bank file formats at any time.
- Send check information electronically to any bank, at any interval throughout the day, and automatically store it for future reference.

Positive Pay for ERA makes protecting your dealership from check fraud and manual errors easier. Don't wait for fraud to strike before you put a protection plan in place.
