

## Better Filing at a Better Price

Dealership-wide Solutions

U.S. and Canada

Update your filing system without breaking your budget. Reynolds' Four-Post Shelving for the ColorFile Filing System is simple, affordable, and efficient.

### An Affordable Solution

Economically retain and protect your files with easy accessibility – even in limited spaces. Four-Post Shelving is specifically tailored for attractiveness, easy assembly, and space efficiency. Open shelves provide clearly visible and easily retrievable folders by utilizing vertical space to maximize file storage per square foot.

### Constructed for Efficiency

Move beyond inefficient four-drawer filing systems with the cost-effective construction of open Four-Post Shelving:

- Adjustable shelves made of 22 gauge steel are easy to assemble and allow for non-standard files or specialized items.
- File dividers keep files upright and in place.
- Single-faced units provide one-sided access against walls or in aisles.
- Double-faced units offer trouble-free access to files from both sides.
- Back panels provide extra security and support to single-faced units.
- Additional units can be added when your filing needs grow.

## Four-Post Shelving for the ColorFile® Filing System

### Filing that Fits Your Needs

There are many options available to make Four-Post Shelving the perfect shelving system for your dealership. You can pair it with a mobile system or add Roll-Top Doors to help keep customer and business information safe by enabling you to lock your open-faced filing units when not in use. Choose the units and features that work best for you:

- Adder Units can be used to expand the original Starter Unit for extra files.
- Optional sliding work shelves provide a sturdy work surface and can be easily added onto your Four-Post Shelving.
- Standard-Fit Roll-Top Doors attach to each existing filing unit and offer an easy-to-use keyed locking mechanism.
- Custom-Fit Roll-Top Doors can be used to cover multiple units up to 11 feet in width. They also have a keyed locking mechanism or can be motorized for easy opening and closing with an electric key switch, remote control, or wireless keypad.
- Combine Four-Post Shelving with our Track and Carriage System or Deluxe Mobile System for mobility and ultimate space savings.

Stop relying on outdated filing equipment. Our open shelving solutions meet your business needs and your budget. Efficient, open-shelf filing is affordable with Four-Post Shelving for the ColorFile Filing System.
