

## Spot Deliver More Vehicles

Dealership-wide Solutions

**U.S.**

**LAW® UNIVERSAL RETAIL  
INSTALLMENT SALE CONTRACTS**

Dramatically reduce recontracting and deliver more deals the same day by using a contract that is accepted by most funding sources.

When you work with multiple funding sources, unexpected recontracting can create headaches and slow down closing a deal. Imagine the hassles if your customer is rejected by the first funding source—and the customer has already left your lot.

### Universal Funding

Offered in all fifty states, LAW® Universal Retail Installment Sale Contracts are accepted by a wide range of funding sources, so you don't have to bring the customer back into the dealership to sign another set of forms. Just shop the signed universal contract to any or all of your other funding sources.

The ability to access more funding sources simultaneously using the LAW® Universal Retail Installment Sale Contract increases the likelihood of a sale and spot delivery to more customers, raising customer satisfaction and your bottom line.

Automotive finance laws are constantly changing. LAW® Universal Retail Installment Sale Contracts are reviewed by Hudson Cook, LLP—leaders in automotive finance law—on a monthly basis to keep pace with new legislative and regulatory developments.

### Streamline, Consolidate, Simplify

A universal automobile finance contract can streamline the F&I process for your staff and your customers. Using the same form for every transaction reduces the risk of errors and reduces “programming fees.” It also speeds the F&I process, giving your staff more time for lucrative activities such as financing cars and selling the broad scope of aftermarket products.

We offer several documents that complement the LAW® Universal Retail Installment Sale Contract:

- Credit Application.
- Notice to Co-Signer.
- Arbitration Agreement.
- Agreement to Provide Insurance.
- Lease Contract.
- Spanish Translation (in some states).
