

# Control at Your Fingertips

# POWER

U.S.

Dealership-wide Solutions

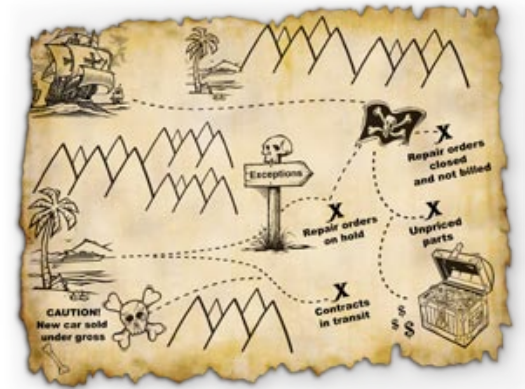

## Ask Yourself...

- ? How many problems go unfixed because I never hear about them?
- ? Am I focusing my time and energy on the wrong issues?
- ? How can I keep track of important details in every department?
- ? How much time do my employees and I waste digging through reports to find issues?
- ? Do I know how effective my departments really are?

## Expect Results

- Maintain control by getting a real picture of operations, instead of relying on others to tell you what's happening.
- Maximize profits by catching leaks and exceptions before they become big problems.
- Reduce costs by easily locating and eliminating unnecessary expenditures.
- Increase productivity and save time when looking for specific information.
- Improve performance by monitoring department and employee productivity.

## Digging for Buried Treasure?

As a manager, how many hours do you spend just trying to figure out what's happening in your dealership? Are you looking in the right places to unlock hidden profit and avoid dire situations?

## About General Manager

Drive profitability and increase productivity with a comprehensive reporting solution that highlights problems requiring your attention and results that don't meet your expectations.

View key performance metrics for multiple stores and departments from one screen.

Exception Reporting:  
Specific Details for the Entire Dealership
