

Straightforward Compliance

Dealership-wide Solutions for POWER

U.S.

National Do Not Call for POWER

Comply with government regulations with the National Do Not Call (NDC) application by identifying customers in your calling area who have subscribed to the National Do Not Call Registry.

Avoid \$11,000 Phone Calls

The NDC application provides safety checks by automatically integrating with multiple screens in your POWER system, so your staff sees Do Not Call status before making “unwanted” calls. Furthermore, for Sales Prospect Control (SPC) users, phone numbers will not appear on the Daily Work Plan screen for customers who are on the National Registry and haven’t conducted business with your dealership within the last 18 months. This helps you avoid substantial fines of up to \$11,000 per instance for unauthorized contact.

Instant Verification

POWER simply reads the Do Not Call data when it accesses the record – there is never a need to run any type of cleansing process, which saves you valuable time and helps ensure that your records are always up to date.

How It Works

- Subscribe to the National Do Not Call Registry Web site and download files for your local area codes.
- Upload those files to your POWER system where the data completely integrates, so it's always in front of you.
- Access reports and screens that indicate whether a phone number is on the National Registry.
- Instantly check phone numbers against the area code files uploaded to your system.

For more information on National Do Not Call, please contact your Reynolds Account Manager, call 1.800.767.7879, or e-mail marketing@reyrey.com.
