

Optimize Your Performance

U.S.

Dealership-wide Solutions

Ask Yourself...

- ? How easy would it be to hack my network?
.....
- ? How long does it take to identify what's causing a network performance issue?
.....
- ? Do I know who and what is hogging my bandwidth?
.....
- ? How many people do I need to call to fix a network issue?

Reports show criminals are now more likely to steal electronic data than physical items.¹

Expect Results

- Keep important applications running at peak performance a only network designed to prioritize business traffic.
- Reduce risk with a centralized firewall and layered security.
- Eliminate network bottlenecks by monitoring traffic with an advanced reporting tool.
- Increase employee productivity by monitoring employee Internet usage.

**How Much Could
1 Hour Cost You?**

Network Downtime = \$10k

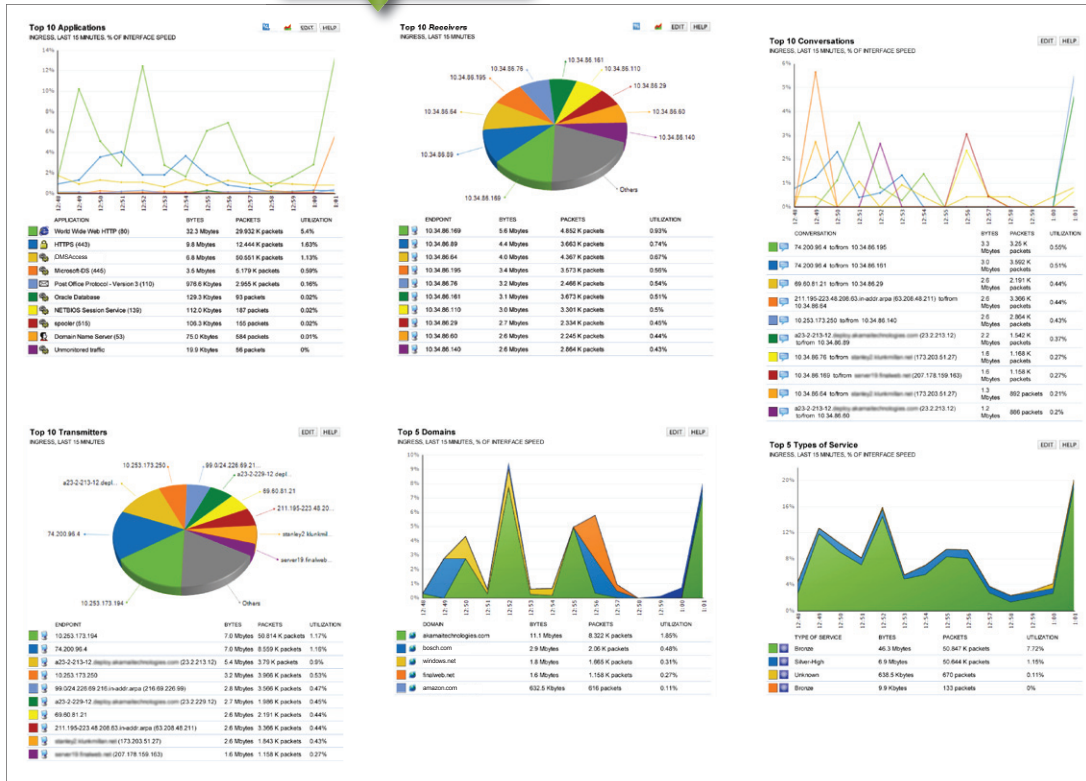

On average, small businesses suffer \$10,000 of lost productivity per every hour of network downtime.²

RPM Network

About RPM Network

The industry's only complete dealership networking system that can handle Internet, store-to-store, and OEM communications.

Easily review application traffic.

RPM Network provides a powerful reporting tool, giving you immediate insight so you can troubleshoot most network performance issues.

“When we had the major fire at our facility, our entire computer room was destroyed. With **one phone call**, our store was up and running **within hours**, with **no lost information at all.**”

Don Januchowski
 Director of Fixed Operations
 Grand Auto Inc.
 Thornton, CO

Highlights

- Developed and engineered specifically to meet the needs of automotive retailers.
- Recognizes and prioritizes DMS and other business applications.
- Separates a secure private network from the public Internet.
- Scalable to meet the needs of a single location or stores nationwide.

Your business depends on the ability to seamlessly communicate over the Internet, between stores, and with your OEM. RPM Network provides the reliability, performance, security, and flexibility necessary for your business success.
